

Mequatling Angus

Proudly sponsored by:

“50 Years of Excellence!”

Vicky and I wish to heartily welcome you to the 2017 Mequatling Angus bull and female sale – Mequatling Angus is celebrating 50 years of Excellence in the Angus business!

Mequatling Angus is proud to mention some of the unique Mequatling collection of achievements that span a commitment to driving the Angus Industry in South Africa over the past 50 years:

- The South African Auction all-time record holder for both Red and Black Angus cattle.
- The South African Commercial Cattle farmer of the year 2014.
- The Free State Farmer of the year 2007.
- The South African Stud Breeder of the year 2005.
- The worldwide top priced embryo offering at the World Angus Forum 2005.
- 22 Supreme Beef Champions and Runners-ups at the 3 major shows exhibited, the Rand, The Royal & Central Shows, between 1982 to 2007. Mequatling Angus no longer shows cattle but still rejoices with every Angus success in the showring.
- The South African performance testing and carcass evaluation leaders, accounting for more than half of the official carcass measurements in the country.

Angus cattle are our only business. At Mequatling we try our level best to produce cattle that excel in reproduction, milking and growth as well as carcass quality, all combined together in an eye-appealing package. We believe that performance data should back the cattle and not just opinions. In order to mean anything, pedigrees and performance data need to be backed by DNA parentage verification. Preoccupation with real-world genuine performance thus remains the primary focus at Mequatling.

As always, we are selling every pregnant 6 year old female – no exceptions! We also are adding some younger females to mark this special occasion of the 50th Anniversary Sale. The cows on offer are a gorgeous group of powerful broodcows and are tremendously functional - the average reproduction index for the cows on sale is a mind-blowing 121 indexes. (More importantly, the lowest reproduction index of any cow on sale is an outstanding 117 index). There are some very special donor prospects included in this year's offering.

The selection of bulls continues to provide excellent “Butt, Body and Balance”. All bulls have performed on South Africa's largest growth test and carcass evaluation. The selection process has been strict and only the top 36% of bulls born in 2015 are on sale today.

Enjoy the day!

Philip Barnard

“50 Jaar van Uitnemendheid”

Dit is vir my en Vicky aangenaam om almal by Mequatling en by die 2017 Mequatling Angus bul en 6-jaar oud vroulike veiling te verwelkom - Mequatling Angus vier 50 jaar van Uitnemendheid in die Angus bedryf.

Mequatling Angus stel met trots 'n versameling unieke prestasies bekend, hierdeur word die toewyding tot die Suid-Afrikaanse Angusbedryf die afgelope 50 jaar onderstreep:

- Die Suid-Afrikaanse Veilingsrekordhouer vir beide Rooi en Swart Angus beeste.
- Die Suid-Afrikaanse Kommersiële Beesboer van die jaar 2014.
- Die Vrystaat Boer van die Jaar 2007.
- The Suid-Afrikaanse Stoetteler van die Jaar 2005.
- Die Wêreldwye hoogste prys embrio aanbieding tydens die Angus Wêreldforum 2005.
- 22 Opperste Bees Kampioene en Naaswenners by die 3 vername skoue deelgeneem, die Rand, Royal en Sentrale Skoue, tussen 1982 en 2007. Mequatling Angus skou nie meer beeste nie, maar is verheug oor elke Angus prestasie in die ring.
- Die Suid-Afrikaanse prestasie-toetsing en karkas evaluasie leiers, verantwoordelik vir meer as die helfte van die offisiële karkasmeting in die land.

By Mequatling probeer ons ons uiterste bes om beeste te produseer wat absoluut uitblink in reproduksie, melk en groei sowel as karkaskwaliteit, alles gekombineer in 'n aantreklike pakket. Ons glo dat prestasie-data die beeste moet rugsteun en nie net opinies nie. Vir enige stamboom of prestasie-data om sin te maak, moet dit met DNS bevestig word. Hierdie prestasie doelgerigtheid bly steeds ons primêre fokus.

Soos altyd, verkoop ons elke dragtige 6-jaar oud vroulike dier – geen uitsondering nie! Ons verkoop ook 'n aantal jonger vroulike diere om 'n stempel op hierdie spesiale geleentheid van ons 50^{ste} Bestaansjaar Veiling te druk. Hierdie is 'n groep kragtige koeie wat geweldig funksioneel is – die gemiddelde reproduksie-indeks vir die koeie te koop vandag is 'n indrukwekkende 121. (Belangriker, die laagste reproduksie-indeks op die veiling is 'n uitstaande 117 indeks). Daar is 'n klompie baie spesiale spoel moontlikhede in die aanbieding.

Die seleksie van bulle gaan voort om bulle met uitstekende “Butt, Body & Balance” te voorsien. Alle bulle het op Suid-Afrika se grootste groeitoets en karkasskandering presteer. Die seleksieproses was weereens baie streng en slegs die top 36% van bulle gebore in 2015 word vandag verkoop.

Geniet die dag!

Philip Barnard

Mequatling Angus Stud: Sale Checklist

- ☒ Bulls fertility tested by Dr D Nel
- ☒ Bulls sheath wash tested for trichomonas and vibrio by Dr D Nel
- ☒ Bulls CA and TB tested 9 May 2017
- ☒ Bulls inoculated for rift valley fever, anthrax, black quarter evil, lumpy skin, Bovishield 4 and 1shot ultra 7 (all with booster shot)
- ☒ All bulls parentage confirmed with DNA testing, DNA on record at Clinomics
- ☒ Bulls phase D growth tested
- ☒ Bulls carcass tested with Real Time Ultrasound scanning
- ☒ Bulls measured for frame score
- ☒ All pregnant 6 year old cows on sale
- ☒ Cows pregnancy tested by Dr D Nel
- ☒ Cows CA and TB tested 9 May 2017
- ☒ Cows inoculated for CA with RB51, rift valley fever, anthrax, black quarter evil, lumpy skin, Bovishield 4 and 1shot ultra 7 (all with booster shot).
- ☒ All cows' parentage confirmed with DNA testing. DNA on record at Clinomics
- ☒ Cows and bulls performance tested
- ☒ Every cow reproduction index above 100
- ☒ No animals known carriers of genetic disorders such as marblebone disease or curly calf syndrome.
- ☒ Cattle inspected and approved by Angus Breed Director, John Boule

Mequatling Angus Stoet: Veiling Oorsiglys

- ☑ Bulle vrugbaarheidsondersoek deur Dr D Nel
- ☑ Bulle geskedewas vir trichomoniasis en vibriose deur Dr D Nel
- ☑ Bulle getoets vir BM en tering 9 Mei 2017
- ☑ Bulle ingeënt teen slenkalkoors, miltsiekte, sponssiekte, knoppiesvel, Bovishield en 1shot ultra 7 (almal met skraagdosis)
- ☑ Alle bulle se ouerskap bevestig met DNS, op rekord by Clinomics
- ☑ Bulle op fase-D groeitoets getoets
- ☑ Bulle geskandeer vir lewendige ultrasoniese meetings
- ☑ Bulle gemeet vir raamgrootte
- ☑ Elke dragtige 6-jaar oud koei op die veiling
- ☑ Dragtigheid bevestig deur Dr D Nel
- ☑ Koeie vir BM en tering getoets 9 Mei 2017
- ☑ Koeie ingeënt vir BM met RB51, slenkalkoors, miltsiekte, sponssiekte, knoppiesvel, Bovishield en 1shot ultra 7 (almal met skraagdosis).
- ☑ Koei-kudde se ouerskap bevestig met DNS, op rekord by Clinomics
- ☑ Koeie en bulle prestasie getoets
- ☑ Elke koei se reproduksie-indeks bo 100
- ☑ Geen beeste bewuste draers van bekende genetiese afwykings soos 'marblebone disease' of 'curly calf ' sindroom
- ☑ Diere geïnspekteer en goedgekeur vir registrasie deur Angus rasdirekteur, John Boule

On every Mequatling sale, we get the day started with a topnotch animal as lot 1. The Mequatling 50th Anniversary Sale is no exception! Today the honour of opening the sale goes to Mequatling Red Rose, a special young Mulberry daughter that has been added to the usual offering of every pregnant 6 year old as a special addition for today's Mequatling 50th Anniversary Sale.

Mequatling Red Rose 12 0196 is a really gorgeous girl – she is just so feminine and her beaut of an udder can be seen on the day she weaned her most recent calf in the colour section of today's catalogue.

Mequatling Red Matriarch is a powerhouse matron - she has huge length and depth of body and a wonderful spring of rib. Her stunning udder can be marveled at in the colour section of today's catalogue where she features as a main attraction.

Her wean and year breeding values place Red Matriarch comfortably in the top 1% of all Angus cows in South Africa. Likewise, her 122-reproduction index place her at the pinnacle of the breed. Her tremendous son, Mequatling Warrior, sold as lot 53 through the 2016 Mequatling Sale.

Mequatling Red Matriarch 11 0446 is an opportunity to buy one of the very best in South Africa.

REPRODUCTION INDEX
121

Mequatling Red Matriarch traces back to the immortal Mequatling Matriarch 96 0340 donor cow. Red Matriarch 12 0192 is sired by Mequatling Chief Warhawk.

Red Matriarch 12 0192 has good length of body. She is feminine with a sound udder.

BLACK (Red gene carrier)

The Black Angus cows carrying the red-gene can be used both by Red Angus breeders and by Black Angus breeders:

If they are mated to a black bull (that doesn't carry the red gene) then 100% of the progeny will be black.

If these cattle are mated to a Red Angus bull, then the progeny will be Red on half the occasions and Black the other half, on average. As the Red gene is a non-diluter gene, there is no occurrence of off-colours i.e., the progeny are either totally black or totally red. You decide.

These Red gene carrier cattle offer an exciting opportunity to bring new and exciting genetics into the other colour code.

One of the main reasons that I like Net Worth daughters so much is due to their wonderful 'thickness and femininity'. Mequatling Miss World is very true to type.

This broad female is a direct daughter of a cow out of the same flush that topped the 2005 Angus World Angus Forum embryo auction.

5.5

Mequatling WB15 0489 is a commercial bull and not available to use in a registered herd - he has a small white spot in front of the navel that makes him ineligible. This does not make him less of a bull, he is a contender today and opens the bull sale. Many say that the first bull always is the bargain of the sale, so don't miss out.

WB15 0489 is a muscular bull with his superior muscling visible throughout his length of body. WB15 0489 gained weight above average on South Africa's largest official Angus growth test of 116 bulls. The 205 day breeding value of WB15 0489 places him in the top 1% of all Angus bulls for growth in the country.

Mequatling Cracker Jack is a powerful bull with huge capacity. He has striking length of body and his superior hind quarter muscle stretches all the way into his second thigh. Cracker Jack is featured in the colour section of today's Sale Catalogue.

The Mequatling growth test of today's bulls consists of 116 bulls measured officially. Cracker Jack was a standout performer with a 130 ADG (average daily gain) and he scanned the very best dressing percentage of the Red bulls on offer today with a whopping 66.7 % of live mass. As cattle farmers, we make money out of cattle that grow extremely well and produce the highest slaughter percentage possible.

Mequatling Cracker Jack has wean, year and ADG breeding values in the top 1% of all Angus bulls in South Africa. He certainly is a 'Cracker Jack'!

FRAME SCORE 1 to 11
6.1

Mequatling Mr Midnight is all bull. He has strong spring of rib and very appealing capacity. His back bristles with muscle all the way along his length of body.

Mr Midnight was one of the best performers of the bulls on growth test: his 119 ADG and 65.5% dressing percentage were 3rd best of all the red bulls measured. His 137 index for marbling was the very best of all the red bulls on test.

Mequatling Mr Midnight is backed by breeding values at the very top of the breed: his wean and year breeding values are comfortably in the top 1% of all Angus bulls in South Africa.

FRAME SCORE 1 to 11
5.1

Mequatling One Direction is a knockout herdsire. He has outcross breeding that brings tremendous flexibility in using him anywhere in any herd.

One Direction is a 5.1 frame dark red bull and is built like a tank. He is so easy fleshing and possesses the traditional masculine Angus head that I personally find so appealing. He is featured in all his glory on the inside back cover of the colour pamphlet.

One Direction performed as befits a knockout herdsire: He grew with a 115 ADG and did this ultra efficiently with a 113 feed efficiency (kleiber ratio). His eye muscle was scanned as one of the very best and this supports the visible impression of tremendous muscling.

One Direction is one heck of a bull !

If you want a standout moderate framed easy fleshing herdsire, then Mequatling Steamroller is the bull for you. Steamroller is a broadbased bull with unbelievable thickness and depth of body. His photo appears prominently in today's colour pamphlet.

Stamroller performed on the Mequatling official SA Studbook growth test of 116 bulls: he achieved a 102 ADG (average daily gain) and a 106 feed efficiency index amidst the competition of 116 bulls. His carcass evaluation RTU scanning proved him to be one of the bulls with true carcass merit where he earned a 128 marbling index and a 62.6% dressing percentage.

Mequatling Steamroller is backed by a super set of curve-bending breeding values. Steamroller is the herdsire to moderate frame and bring thickness into a herd whilst not sacrificing one little bit of performance.

Mequatling Lucky is the muscular balanced bull featured strikingly in the colour section of the Mequatling 50th Anniversary Sale catalogue. Lucky has excellent depth of body and capacity.

Mequatling Lucky was a standout with the carcass evaluation when he scanned the joint highest 143 marbling index. His dressing percentage was scanned at a lucrative 62.9 %.

Lucky has earned a superb set of curve-bending breeding values stretching from a mere 0.28 for birth to a 50.6 year value. His ADG sits squarely in the top 1% of South African Angus bulls and his milk maternal value of 15.2 also sits comfortably in the top 1% of all bulls in the country. This bull is in the top level of Angus bulls in South Africa, through and through.

Mequatling Limited Edition is a powerful contender with loads of volume and capacity. This muscular individual has superior length of body.

Superior length of body usually means superior growth and Limited Edition's performance on the official growth test totally supports this belief where he achieved a 124 ADG index and a 110 feed efficiency index. He scanned one of the largest eye muscle areas and produced a 134 marbling index. His dressing percentage also was an outstanding 65.2%.

Mequatling Limited Edition has one of the strongest sets of breeding values around with him being in the top end of the top 1% of all bulls in South Africa for wean, year and ADG (top1% starts at 33.4 for wean, 52 for year & 296 for ADG). Limited Edition is at the top of the breed.

Mequatling Gumbo is sired by the unobtainable Gumbo Gulch Creed 94S whose semen we imported privately from Miller Wilson in Canada. Mequatling Gumbo's dam is the incredible Mequatling Dreamgirl featured as lot 22 today. The embryo sisters to this bull selling as lot 83 are my favourite flush group of heifers to ever be born on Mequatling, they are just gorgeous. John Boule agrees and his comments can be seen as part of lot 22's lot description.

Mequatling Gumbo has excellent length and depth of body, he has volume. He has a proud bearing and stands out in the paddock.

Gumbo was one of the very top performers on growth test with a 138 ADG index and a 126 feed efficiency index. He scanned one of the largest eye muscle areas as well as dressing percentage at 65.7%. Absolutely excellent breeding values back this bull.

Mequatling Gumbo has the pedigree, he has the performance.

Mequatling Smokin' Jo is a powerhouse bull. He is rugged and he ripples with muscle wherever you look. Once you've seen Smokin' Jo, you will never forget him!

Smokin' Jo is sired by HF Kodiak 5R whose semen we imported from Hamilton Farms in North America. Kodiak semen is in such demand now that it is selling in excess of R6,000/straw in the USA. Smokin' Jo's dam is the tremendous Lassie 9 003 donor cow sold to Invermooi Angus on the 2015 Mequatling Sale, she is a block of a cow. The pedigree of this bull is pure beef royalty.

Smokin' Jo 'smoked' the competition on growth test with a 136 ADG index plus a 116 feed efficiency index. This bull topped the carcass evaluation of 116 bulls: Smokin' Jo scanned the largest eye muscle of all the 116 bulls scanned and his dressing percentage of 67.1% was the highest of all the bulls scanned. Mequatling Smokin' Jo is backed by maternal and growth breeding values at the top of the Angus breed.

Smokin' Jo is the muscular powerhouse that will be talked about for a very long time after today.

Mequatling Game Changer is sired by the unobtainable Gumbo Gulch Creed 94S whose semen we imported privately from Miller Wilson in Canada. Mequatling Gumbo's dam is the incredible Mequatling Dreamgirl featured as lot 22 today. The embryo sisters to this bull selling as lot 83 are my favourite flush group of heifers to ever be born on Mequatling, they are just gorgeous. John Boule agrees and his comments can be seen as part of lot 22's lot description.

Game Changer was absolutely outstanding on growth test and earned a 140 ADG index and 122 feed efficiency index. His eye muscle was measured to be one of the very best whilst his marbling was an excellent 131 index. Game Changer was at the top of his game with a 66.8% measured dressing percentage. With his own tremendous performance and pedigree, his breeding values are just excellent.

Mequatling Sir Loin is the last bull on sale today. He is a Fort Knox son and his dam is a Pioneer daughter that weaned him with a 104 index. Sir Loin's dam sells as lot 43 today.

Sir Loin grew at a rapid pace on growth test and was rewarded with a 109 ADG index plus a 105 feed efficiency index. The RTU scanning carcass evaluation revealed him to have one of the largest eye muscle areas plus a money-making 63.9% dressing percentage.

Mequatling Sir Loin has outstanding breeding values with his milk maternal and year values both being in the top 1% of all Angus in the Country.

EXPORT TO SOUTHERN AFRICA:

Mequatling gladly will help buyers from Namibia, Botswana, Mozambique and Zimbabwe with the veterinary requirements for export of sale cattle. The cattle are welcome to stay for up to a month free of charge whilst the necessary veterinary tests are completed. We will do all the necessary on farm work for free. The veterinary costs and testing costs naturally are for the expense of the buyer. To make this easier for buyers we give you the option of adding R2,500/head to each lot purchased to cover all veterinary testing costs.

UITVOER NA SUIDERLIKE AFRIKA:

Mequatling help graag kopers van Namibië, Botswana, Mozambique en Zimbabwe met die veeartseny vereistese vir die uitvoer van veilings beeste. Die beeste is welkom om gratis op die plaas te bly tot 'n maand, terwyl die nodige veeartseny toetse voltooi word. Ons sal al die nodige werk op die plaas werk, gratis doen. Die veeartseny kostes en toets kostes word vanselfsprekend deur die koper gedek. Om dit makliker vir die kopers te maak, gee ons die opsie om R2,500/ kop vir elke lot gekoop by te voeg, om al die veeartseny toets kostes te dek.
